

# PREZI PRESENTATION

## Presenting with Prezi

Due July 2 & 3

By ENG1302.RachelCantrell.com

Prezi.com is a free website that allows you to create presentations. It is similar to PowerPoint but more creative! It has more options including the ability to embed YouTube videos right into your presentation! There are many themes to choose from or you can try to create your own. Prezi.com is free to students. *Save a copy of your prezi to a jump drive or cloud in case their server is down during class.*

Your Prezi needs to include the following:

- Your definition of literacy
- Introduce your discourse community
  - Literacy practices & events (what types of media are they creating and sharing?)
  - You need to include screenshots of the websites you are discussing.
- Include artifacts (images & videos) min. of 5

- At the end lists in MLA or APA format the sources you referenced in your presentation.

Presentation should last for 5-10 minutes. Total run time for all videos should not exceed 3 minutes (talk for 5 minutes min.).

See our class Pinterest board for Prezi tutorials or search YouTube for Prezi tutorials if you get stuck:
